

CALL FOR PAPERS

Tesi & Temi Special Issues

The Association for Applied Statistics and Unioncamere – Istituto Guglielmo Tagliacarne are pleased to **announce** the publication of two Special Issues of the scientific journal *Tesi & Temi*:

1. **Issue 1: Use and Needs of Statistics and Statistical Data in Italian Business Units**
2. **Issue 2: Analysing Business Data with Statistics, Data Science, and AI**

Guest Editors: Fabio Crescenzi, Luigi Fabbri, Andrea Mazzitelli, Alessandra Righi, Alessandro Rinaldi, and Maurizio Vichi.

These topics were the main focus of the ASA 2025 Conference held at Sapienza University of Rome, Italy, in September 2024. The Special Issues will feature the most relevant papers presented at the conference. In addition, the editors welcome further contributions that explore how statistics, in combination with technology and AI, can assist decision-makers in their work.

Tesi & Temi is an open-access international journal that publishes research articles on the application of statistics to economic and other real-world challenges. It welcomes methodological contributions, innovative applications, and broader perspectives on economic and social issues.

The Special Issues aim to create a dynamic forum where company managers, researchers, and public administrators can exchange knowledge, foster collaboration, and gain valuable insights to enhance policy-making and drive innovative research directions.

Submission Guidelines: Researchers interested in contributing a paper are invited:

- a) to send an email indicating the title of your chosen issue (1 or 2), along with the title and authors of your article by March 20, 2025
- b) to submit manuscripts that are between 6 and 12 pages long and follow the provided template to the Journal's Editor-in-chief by April 30, 2025

Submission and publication are free of charge.

Further details on these Special Issues can be found on the Journal's website:

https://www.tagliacarne.it/tesi_temi-30.
